

# Pre Press Contacts

We are producing more and more magazines at Acorn. So we felt it was time that we added some additional points of contact. This is to ensure you quickly get the help you need with queries and so your pages can reach us on time:

## Between 09.00 – 17:30 Mon to Fri:

### First port of call should be your friendly Customer Service Executive's (CSE)

These guys always need to be in the loop as they've got your back!

### Pre-press direct dial - 01924 228 339

Perfect for when we are sat at our Mac's planning your pages

### Pre-press mobile - 07858 172 246

Better if we are in the noisy factory delivering your plates to the press

## During the night and at weekends:

### Pre-press direct dial - 01924 228 339

Perfect if we are checking your pages and outputting your proofs

### Pre-press mobile - 07858 172 246

Better if we are at the other side of the department maybe changing chemistry

### Pre-press email - [repro.digital@acornweb.co.uk](mailto:repro.digital@acornweb.co.uk)

Not good if it's urgent and not ideal for file delivery, but ok if you want to make us aware of something or request a call back. Always cc in your (CSE)
